

Shaliyabanu K

Angular Js Developer

shaliyabanuk@gmail.com | +91 7845715328

Summary

A motivated Software Developer with **4 years** of experience specializing in front-end development with **AngularJS**. Proficient in the full software development lifecycle, from concept and design to deployment and maintenance. Adept at creating and maintaining efficient, scalable, and user-friendly applications for healthcare and IT service industries. Seeking to leverage technical skills to contribute to a challenging and dynamic team.

Professional Experience

Angular Developer | Colan Infotech Private Limited | 2023 – Present

I developed and enhanced UI components for diverse client projects using AngularJS, working closely with designers and back-end teams to deliver smooth, feature-rich experiences. I consistently wrote clean, efficient code aligned with best practices, and actively contributed to code reviews to ensure high-quality, scalable, and maintainable solutions.

Associate Engineer IT (Software Developer) | MedAll Healthcare Pvt Ltd | 2022 – 2023

I built and maintained a diagnostic billing app using AngularJS, creating key modules like patient registration, appointments, reporting, and advanced billing workflows. I integrated MS SQL for smooth data handling, developed admin tools for updates and refunds, and also contributed to “ScanApp,” a mobile tool for managing scan processes.

Store Associate | AB Global (Vanapadi) | 2018 – 2021

I managed daily store operations, handling inventory, customer service, and sales transactions while assisting customers with inquiries and product information to ensure a smooth and positive shopping experience.

Key Projects

Project 1 - Home Collection Management Application

Designed and developed responsive user interfaces using **Angular 13** to support home-based sample collection services. Implemented features for customer scheduling, sample pickup tracking, and real-time status updates across different stages of the collection process. Integrated REST APIs for seamless data flow and ensured smooth navigation, performance optimization, and a user-friendly experience throughout the application.

Project 2 - UWin and ScanApp (Billing Software)

This proprietary diagnostic billing application for MedAll Healthcare streamlines the entire patient billing workflow—from appointment booking to final report delivery. I built role-based modules for Registration, Appointments, Customer Views, and Reporting, along with a “Revisit” feature for quick access to returning patients.

Project 3 - Loan Dashboard & TVAM Website (Angular 14)

Developed interactive dashboards to capture and manage customer loan information, track loan progress, and monitor payment collections. Implemented data validation, visualization, and workflow tracking to support financial operations. Contributed to the TVAM Group website by enhancing UI components and ensuring dynamic content rendering through API integration while maintaining performance and usability standards.

Project 4 - Hallmark Healthcare Application

Focused on application maintenance and stability by identifying and fixing UI and functional bugs in an **Angular 17** environment. Supported modules related to doctor salary management and surgery history tracking while improving overall performance and code quality. Utilized Yarn for dependency management and collaborated with cross-functional teams to resolve issues efficiently.

Project 5 - E-Commerce Shopping Application – UAE Client

Developed reusable **ReactJS components** and responsive user interfaces using **Tailwind CSS** for a multi-brand e-commerce platform. Implemented product listing, brand-based navigation, and discount features to enhance the shopping experience. Collaborated with backend services for **API integration** and ensured smooth user interaction, responsiveness, and visual consistency across devices.

Skills

Angular Js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Angular Material, **React Js** RxJS, NgRx, REST API Integration, Component-Based Architecture, SPA Development, Routing & Navigation, State Management, Form Handling (Template & Reactive Forms), HTTP Client, Observables & Async Programming, Version Control (Git), Responsive UI Design, Debugging & Performance Optimization.

Education

Bachelor of Computer Applications (73%)
M.M.E.S Women's Arts & Science College, Melvisharam | 2018

Recognition & Awards

- **Outstanding Performance and Lasting Contribution**
